**NOTES:**

1. Apologies in advance for any errors on the above file. We had an archer who used the incorrect month's score sheet, which caused a major blip and locked the system.
2. If you request a further score sheet, please ensure that you use it as it causes major calculation issues if issued and not used.
3. Archers who have entered but not submitted any score by the end of month 3 (June) will be removed from the system as again they are causing calculation issues.
