Directions: Take the turning into Field Barn farm, which is the first gated entrance on the left coming down the hill, or the last on the right going up the hill out of Kingsclere. Please note that the gate is normally locked unless we are holding an event.

Drive slowly through the farm, and out the other side. After 200 yards, turn left towards the hills. Go to the end of that track, through the gate, then bear left through another gate into the field beyond. Drive along the bottom of the field round to the Warren, where you will see cars parked.

Please leave all gates as you find them, as there may be livestock in the field and in the Warren itself.
