## Registration closing

Registration closes 3 days before your competition date. This deadline is necessary to deliver the scorecards in time.

## Entry fee

There is no entry fee.

## Procedure of the participation in the event

Every competitor must sign up for one of the competition dates. The result team will send a scorecard with a QR-Code for the lanseo Scorekeeper App NG for every archer (PDF to the declaring email address). Please print this scorecard.

The archers install the lanseo Scorekeeper App **NG** on their smartphone and scan the QR-Code (see information on the lanseo tournament website <https://www.ianseo.net/Releases.php>). So the results come directly into the result system lanseo. Additionally, you have to record all your arrows in the scorecard as back up for technical problems.

Every archer must use a target face **alone**. At the beginning of **every distance** you have to mount a **new target face**.

The archer and one responsible person from the club have to sign the scorecard to confirm the score and the eligibility requirements (correct division and class etc.).

After each distance you make a picture of the scorecard and the target face and send it within 3 days to the result team (2 distances = 2 pictures to [aaoyc2025@gmx.at](mailto:aaoyc2025@gmx.at)). So the electronic recorded scores can be verified or the pictures can be used as a back up in case of technical problems.

**If the pictures are not sent just in time or the results cannot be verified, the score will be withdrawn!**

## Notes

We would be pleased to receive some pictures of the archers competing and we will publish them on the lanseo competition website.

The DSGVO (Austrian version of the EU General Data Protection Regulation) applies. No WA records nor WA performance awards can be officially recognized.

**Good luck for the competition!**
