

Some recent works have taken place at Ballyclare Rugby club, and this has changed access arrangements to the competition field.

The red box on the map shows the carpark to be used. This has not changed from the past. Should this become full, please use the overflow car park which is shown with the purple box on the map.

When accessing the field please follow the yellow arrows on the map and walk around the lane, not over the dike anymore which will bring you to a set of gates, come by the side of these gates and this will bring you onto the competition field.

The blue arrow is access parking for the tournament officials and para-athletes. This is strictly only for the mentioned people and cannot be used by the public. Should you park at the blue arrow, you will be asked to move your vehicle.

New speed bumps have been installed along the laneway at Ballyclare Rugby Club. You should travel slowly and respect the 10mph speed limit at all times.
